

# TRAINING MANAGEMENT SYSTEM

Manage and complete your corporate, professional and occupational training in one central system.

## What is CentraSys?

CentraSys is a secure, web-based system for completing and managing corporate, professional and occupational training.

## The CentraSys Advantage

The CentraSys Training Management system allows unlimited, multi-level user access to training, exams, and other documents for a reasonable monthly usage fee.

- **Save time** with the ability to access and update your company's training materials at anytime and from anywhere
- **Save money** on the cost of paperwork, travel, room rental, trainers, and time away from work
- **Eliminate the need to upgrade** ordinary, out-dated training applications

## FEATURES:

- **Integrate** existing training and documentation into a database using any familiar electronic file or format
- **Create, update, and change** documents and course content in real-time
- **Organize and store** courses and documents in one location
- **Manage** the assignment of employees to single or multiple training categories
- **Track** requirements for training, licensing, certifications, and qualifications
- **Print and access** real-time reports for all training activities, including course lists, status, and training history
- **Communicate** through automatic emails containing training reports, expiration notices, and renewal dates
- **Purchase and sell** courses in the Course Library
- **Train from anywhere** on a PC or mobile device
